I am writing to you today on behalf of Smarties Tutoring Services, an approved Supplemental Education Services (SES) provider for New York City Schools. We are an organization providing before and after school tutoring programs as well as summer programs in literacy and mathematics. Our goal is to engage students in the learning process through innovative, dynamic programs designed to help children experience the joy of learning.

We have worked with schools just like yours and have a proven record of helping students improve their academic performance and test scores:

- More than half of our students demonstrated increases greater than 80% on one or more component of literacy.
- Nearly half of our students demonstrated increases greater than 60% in at least one mathematics content standard.
- In a Connecticut state evaluation, we received the highest rating given to providers of Supplemental Education Services.

While the statistics show our students achievements, which we are very proud of, it is also what schools, children, parents and educators have said about working with Smarties that is the true testament of the difference we are making. In addition to our proven record of helping students:

- Our curricula are consistent with New York State Department of Education content standards and the New York City Schools instructional program.
- We do everything necessary to meet each student's individual needs and to utilize his or her special learning style in order to maximize the student's full potential.
- All of our instructors are certified in their subject area by the state, and they are trained specialists in our curricula.
- Our curricula and teaching practices facilitate inter-cultural understanding through multicultural experiences and an atmosphere of mutual respect.
- We communicate regularly with parents and participants' classroom teachers throughout the program.

For more information, please check out our website at [www.smartiestutoring.com](http://www.smartiestutoring.com). I would like to schedule a brief meeting with you to personally introduce myself and Smarties Tutoring Services program at your earliest convenience.

Sincerely,

Isaak Aronson, Ph.D.  
Executive Director
